

Topic:

No separate reduction target (requirement 3B) and communication objective (requirement 3C) for business travel

Context:

Requirement 3.B.1 states that the organisation must have a reduction target for scope 1 & 2 and business travel. It is not clear whether these should be 3 separate objectives or 2 objectives in which scope 2 is combined with business travel.

Requirement 3.C.1. states that the organisation must communicate about the CO₂ footprint (scope 1 & 2 emissions), whereby it seems as if business travel (scope 3) may be excluded.

Harmonisation act:

Requirement 3.B.1 requires (at least) separate reduction targets for scope 1 (1 objective) and scope 2 + business travel (1 objective).

Requirement 3.C.1 requires communication about the full CO₂ footprint or emission inventory as referred to in requirement 3.A.1, i.e. all scope 1 & 2 emissions & business travel (scope 3).

Date of publication Harmonisation act: 25 January 2021

Transition period: n / a
